

A collage of three portrait photographs. From left to right: a man with dark hair and a beard, wearing dark sunglasses and a dark suit; a woman with dark hair, smiling, wearing a black and white striped dress; and another man with dark hair and a beard, wearing a dark suit and a boutonniere. The background of the collage is a blue and yellow abstract pattern.

# RTL – Europe's leading entertainment brand

In 2021, RTL strengthened its position as a leading European media brand by creating one unified RTL brand. RTL Group, RTL Deutschland, RTL Hungary, RTL Luxembourg and the international sales unit RTL AdAlliance all operate under one RTL brand. RTL is united by one joint design, purpose, promise and shared brand principles.

The multicoloured logo reflects the diversity of RTL's content and people and is also used for the streaming services RTL+ in Germany and Hungary and RTL Play in Luxembourg.

**RTL stands for entertainment, independent journalism, inspiration, energy and attitude.**

# Our ambitions and targets

## Our content

Our news organisations strive for truthful, fair and impartial reporting, while protecting individual rights and shielding minors from inappropriate content.

We ensure our output reflects the diversity of the various cultures we serve.

## Our climate target

According to RTL Group's current climate target, the greenhouse gas emissions reported in the base year 2018 are to be reduced by 50% by 2030. By the end of 2024, RTL Group achieved a reduction of 30% compared to 2018.

Due to the revised methods for Scope 3 in accordance with the new reporting requirements, an adjustment of the base year 2018 values and a revision of the 2030 target is planned for 2025.

## Our diversity target

Our long-term ambition is for women and men to be represented equally at all levels.

By the end of 2030, we aim to increase the percentage of women in top management<sup>1</sup> to at least 40%.

We do not tolerate discrimination against employees or applicants for employment because of race, national or ethnic origin, gender, pregnancy, marital or parental status, age, disability, religion or belief, sexual orientation or any other characteristic specified under applicable anti-discrimination law or company policy.

More information on our targets can be found in our Sustainability report

**RTL Group's corporate culture is founded on fairness, partnership, mutual trust and commitment.**

<sup>1</sup> The definition of RTL Group's top management was refined in 2024 to be in line with the European Sustainability Reporting Standards (ESRS).

# Outlook 2025

In August 2025, RTL Group confirmed its outlook on the basis that TV advertising revenue would grow by 2 to 3 per cent in the second half of 2025, in particular in Germany. RTL Group now expects its TV advertising revenue in the second half to be down by high single-digit percentage.

Due to the decline of the German and French TV advertising markets RTL Group reduces its revenue and Adjusted EBITA outlook for 2025 as follows:

- Full-year **revenue** of €6.0 billion to €6.1 billion (previous guidance: ~€6.45 billion)
- Full-year **Adjusted EBITA** of €650 million (previous guidance: ~€780 million, +/- 5 per cent)
- Full-year **Total Group profit** of approximately €1 billion

RTL Group's dividend policy remains unchanged: RTL Group plans to pay out at least 80 per cent of its adjusted full-year net result.

	2024	2025e old	2025e new

## Alternative performance measure

### Explanation

---

Adjusted EBITA represents a recurring operating result and excludes significant special items. RTL Group management has established an 'Adjusted EBITA' that neutralises the impacts of structural distortions for the sake of transparency. Based on the accelerated industry trends explained in the **Market** section (pages 46 ff of RTL Group's Annual Report 2024) and **Strategy** section (pages 49 ff of RTL Group's Annual Report 2024), RTL Group plans to increase its investments in business transformation including streaming, premium content, technology and data. At the same time, management continually assesses opportunities to reduce costs in the Group's traditional broadcasting activities – for example, reallocating resources from its traditional businesses to its growing digital businesses – and this may lead to restructuring expenses that are neutralised in the Adjusted EBITA.

#### Adjusted EBITA

Adjusted EBITA is determined as earnings before interest and taxes (EBIT) as disclosed in the income statement excluding the following elements:

- Impairment of goodwill of subsidiaries
- Amortisation and impairment of fair value adjustments on acquisitions of subsidiaries
- Impairment and reversals of impairment losses of investments accounted for using the equity method
- Impairment and reversals of impairment losses on other financial assets at amortised cost presented in 'Other operating expenses' or 'Other operating income'
- Re-measurement of earn-out arrangements presented in 'Other operating income' or 'Other operating expenses'
- Fair value measurement of investments presented in 'Other operating income' or 'Other operating expenses'
- (Gain)/loss from sale of subsidiaries, other investments and re-measurement to fair value of pre-existing interest in acquiree
- Significant special items

---

#### Adjusted EBITA margin

The Adjusted EBITA margin as a percentage of Adjusted EBITA of revenue is used as an additional criterion for assessing business performance.

---

#### Adjusted EBITDA margin

RTL Group estimates and reports the Adjusted EBITDA margin as a percentage of Adjusted EBITDA of revenue.

## Alternative performance measure

### Explanation

Adjusted EBITA before streaming start-up losses

In line with RTL Group's strategy, the company continued to invest heavily in its streaming services, RTL+ in Germany and Hungary and M6+ in France. The Group's streaming services have seen a rapid increase in the number of paying subscribers (for details see **Building national streaming champions** on page 50 of RTL Group's Annual Report 2024). As part of this strategy, RTL Group's Adjusted EBITA has been impacted by losses associated with the expansion of its streaming services. These losses are operational in nature and are therefore not classified under 'Significant special items.' RTL Group has historically reported 'streaming start-up losses' separately to provide transparency regarding the impact of its streaming investments on overall business performance. However, the Group has decided to discontinue the separate reporting of Adjusted EBITA before streaming start-up losses. This decision is based on the fact that streaming start-up losses have declined significantly over the past year and are projected to decrease further in 2025. As streaming operations continue to scale and mature, their financial impact is becoming less of a distinct factor within RTL Group's overall profitability. By 2026, the Group anticipates that its streaming business will achieve overall profitability.

Significant special items

Significant special items exceeding the cumulative threshold of €5 million, need to be approved by management, and primarily consist of restructuring expenses or reversal of restructuring provisions and other special factors or distortions. The adjustments for special items serve to determine a sustainable operating result that could be repeated under normal economic circumstances and is not affected by special factors or structural distortions.

Streaming start-up losses

Streaming start-up losses are defined as a total of Adjusted EBITA from RTL+ in Germany and Hungary, M6+ in France and Bedrock as consolidated at RTL Group level.

Operating free cash flow

Operating free cash flow is equal to net cash from/used in) operating activities adjusted by income tax paid; transaction-related costs with regard to significant disposals of subsidiaries; cash outflows from the acquisitions of programme and other rights and other intangible assets and tangible assets; and cash inflows from proceeds from the sale of intangible and tangible assets.

## Alternative performance measure

### Explanation

Operating cash conversion rate	Operating cash conversion rate means operating free cash flow divided by EBITA.
Net cash/(debt)	The net cash/(debt) is the gross balance sheet financial debt adjusted for 'Cash and cash equivalents'; current deposits with shareholder and its subsidiaries reported in 'Accounts receivable and other current assets'.
Organic growth/decline	The organic growth is calculated by adjusting the reported revenue growth mainly for the impact of exchange rate effects, corporate acquisitions and disposals. It should be seen as a component of the reported revenue shown in the income statement. Its main objective is for the reader to isolate the impacts of portfolio changes and exchange rates on the reported revenue. When determining the exchange rate effects, the functional currency that is valid in the respective country is used. Potential other effects may include changes in methods and reporting.
